

NOW ANYBODY CAN BE A “UNIQUE TERRORIST”

Dear Fellow Americans:

I just met with my chief defense attorney, Aaron Michel, who is very concerned with the government's effort to mislead the public, just as they misled the jury. He pointed out that the gov is now trying to brand all local non-government currencies as illegal and anybody who expresses opposition to the current US monetary policy is a “unique terrorist” who represents “a clear and present danger to the economic stability of this country.”

It is clear that the government is trying to grossly expand its power to control the people's basic rights of freedom of speech, expression and action regarding their money and monetary policy. For example the Department of Justice press release added this statement, “. . . and to insure a singular monetary system for all purchases and debts in the United States, public and private” to their quote of Article 1, section 8 clause 5 of the US Constitution, when no such law or even idea, exists outside of the hyperbole of the DOJ.

Seth Lipsky's article in *The New York Sun* regarding a “Unique form of Terrorism” confirms that the gov can tailor terrorism to any definition they want or need for any occasion. Lipsky's article should only be the beginning of a much larger public outcry.

The alarming statement in the Department of Justice press release by U.S. Attorney Anne Tompkins should concern every American. Tompkins said: “Attempts to undermine the legitimate currency of this country are simply a unique form of domestic terrorism. While these forms of anti-government activities do not involve violence, they are every bit as insidious and represent a clear and present danger to the economic stability of this country. We are determined to meet these threats through infiltration, disruption, and dismantling of organizations which seek to challenge the legitimacy of our democratic form of government.”

We live in a very dangerous time of mounting price inflation, social unrest and expanding government wars all based on an undisciplined monetary system run by madmen.

Please take action. Write an article, your Congressman, Senator, Attorney General, a Letter to the Editor of your local newspaper and encourage your email list to do the same.

There is an urgent need for a massive outcry and I urge you to speak out and encourage others, who support the principles of a free market, to also speak out. *Silence in the face of tyranny is consent.*

Thank you for your support to return American to value.

Sincerely,

Bernard von NotHaus
Monetary Architect
